

Procurement - Incorporating Sustainability & RBA

This training module covers essential procurement strategy aspects, including cost reduction, quality improvement, supplier relationships, and risk management. Participants will learn to integrate sustainability, ethics, and the RBA Code of Conduct to ensure responsible, transparent, and efficient procurement processes, fostering long-term supply chain success.

We believe that training through educational workshop can help participants in learning new skills and gain knowledge on a specific topic. The Workshop-type of training can stimulate communication and be more interactive as the case study given to the participants include hands-on activities. Overall, adult learning recognizes and respects the autonomy, experiences, and motivations of adults as they engage in educational opportunities to enhance their lives and careers.

Key Aspects and Characteristics

we embed into adult learning are as follows :

Self-directed

Participants would take responsibility for their own learning where they choose what to learn, how to learn, and when to learn based on their goals and interests.

Relevant & Practical

Participants could prioritize learning that is immediately applicable to their personal or profession and they value practical knowledge and skills that can solve their problems.

Experiential

Participants bring their own life experiences and prior knowledge into the learning process which learning activities are often build upon these experiences to deepen understanding and relevance.

Procurement - Incorporating Sustainability & RBA

Trainer's Profile

The Trainer holds Master Degree in Business Administration (MBA) from Universiti Utara Malaysia (UUM). He also holds professional certifications such as CIDB's Certified Facilities Management Manager (CFMM), Certified CIDB's trainer for Landscape Construction and Construction of Playground under CE14 & B09 contractors' registration code, Certificated Lead Auditor for ISO9001:2010 Quality Management System and also a Certified HRDF's Train-the-Trainer Scheme. He gained more than 33 years of experience working in various cross-functional industries namely plantations, expressway services, oil and gas, development project and facilities management. This Trainer specialise in Procurement and Contracts Strategies, and delivering training across Malaysia and Brunei Darussalam.

Previously, he served as Contract and Project Administration Manager at Daya OCI Sdn Bhd and later as Tender and Contract Manager, then General Manager, at Swiss Resources Sdn Bhd. After completing his MBA in 2013, he joined Global Facilities Management Sdn Bhd as Procurement and Contracts Manager, managing procurement activities for contracts worth over RM300 million. His experience includes handling procurement and contract processes for significant projects such as commercial buildings, PFI Concessionaires, government buildings, and hospitals. He continues to advise and mentor young professionals through training and talks for major clients like MARA, University of Malaya, and UiTM. He is also a frequent speaker at Politeknik Premier Sultan Salahuddin Abdul Aziz Shah in Shah Alam. In the recent development of training, he embedded the principle of SDG where the Environmental, Sociability and Governance (ESG) concept have been part of training values. It involves resource efficiency metrics, effective material resources, employee health and safety practices, business sustenance desired by shareholders, development of clear policies and procedures. The ESG application also encourages systematic disclosures of information and reporting programmes such as company's sustainability report, setting of targets and report progress, and also the establishment of reporting and communication frameworks.
